30.	Two Sources of own	ner's fund that can be used	for raising finance by	(2.5	
	business:		,	$\hat{x}2=5$ )	
	a) Equity shares: Eq	quity shares is the most imp	portant source of raising	,	
			represent the ownership of		
	a company and thus the capital raised by issue of such shares is known as				
	ownership capital or owner's funds. Equity shareholders do not get a				
	fixed dividend but are paid on the basis of earnings by the company.				
	They are referred to as 'residual owners' since they receive what is left				
	after all other claims on the company's income and assets have been				
	settled. They enjoy the reward as well as bear the risk of ownership.				
			-		
	Their liability, however, is limited to the extent of capital contributed by them in the company. Further, through their right to vote, these				
	shareholders have a right to participate in the management of the company.				
	b) Retained earnings: A company generally does not distribute all its				
	earnings amongst the shareholders as dividends. A portion of the net earnings may be retained in the business for use in the future. This is				
earnings may be retained in the business for use in the future. This is					

	financing or 'plough ploughing back in an	arnings. It is a source of intaing back of profits'. The profits organisation depends on a licy and age of the organisa	rofit available for many factors like net	
31.	Advantages of video a) Saves time b) Saves cost c) Efforts minimisat d) Glocalisation of to e) Rapid connect	ion		(1x5=5)
