24.	Mention any two reasons to state that India is a federal country.	2
	Ans: The following are the reasons to state that India is a federal Country.	
	Division of Powers: The Constitution of India clearly demarcates the powers of the Control and Ctate group and hoth have their approach of	
	the Central and State governments, and both have their separate areas of	
	jurisdiction. The Seventh Schedule of the Indian Constitution lists the Union List,	
	State List, and Concurrent List, which define the powers and responsibilities of	
	the Central and State governments.	
	• Independent Judiciary: India has an independent judiciary with the power of	
	judicial review. The Supreme Court of India is the highest judicial authority in the	
	country and has the power to interpret the Constitution and resolve disputes	
	between the Central and State governments.	
	• Representation of States: The Rajya Sabha, the upper house of the Indian	
	Parliament, represents the States and Union Territories of India. The members of	
	the Rajya Sabha are elected by the elected members of the Legislative	
	Assemblies of the States and Union Territories.	
	These factors contribute to India being a federal country where power is divided	
	between the Central and State governments.

25.	Provide evidence to support the claim that print culture had a significant	3
	impact on the social lives of women in India?	
	Ans:	
	• The rise of print culture in India during the 19th century played a crucial role in	
	awakening the social life of women. The printing press allowed women to access	
	information, knowledge and ideas that were previously inaccessible to them.	
	Women's magazines, newspapers and books provided a platform for women to	
	express their views, ideas and opinions on various social issues such as	
	education, gender equality, women's rights, and social reform.	
	 Liberal husbands and fathers began educating their womenfolk at home and sent 	
	them to schools.	
	• In East Bengal, Rashsundari Debi, a young married girl in a very orthodox	
	household, learnt to read in the secrecy of her kitchen and wrote her	
	autobiography Amar Jiban (1876). It was the first full-length autobiography	
	published in the Bengali language.

	(E	B): Ans: Under the Mahatma Gandhi National Rural Employment Guarantee Act	
	(N	INREGA), the Village Head, Mr. Pawan, can take several initiatives to increase the	
		come of the people living in his village. MNREGA aims to provide employment to	
		ral households, and the following activities can be initiated to generate employment	
	op	oportunities and increase income:	
	•	Cleaning the lake/pond: Cleaning and maintaining water bodies such as lakes	
		and ponds can help to improve the quality of water and make it suitable for	
		irrigation purposes. This can lead to increased agricultural productivity, which, in turn, can increase the income of the farmers. Additionally, cleaning of the lake/	
		pond can provide employment opportunities for the local people.	
	•	Village road construction: The construction of village roads can improve	
		connectivity and accessibility within the village, making it easier for people to	
		commute to work or transport goods. This can help to increase economic activity	
		in the village, creating more job opportunities and boosting the income of the local	
		people.

 and create a market for local products, which can further contribute to increasing the income of the people. Construction work: The construction of houses, community centers, and other infrastructure projects can generate employment opportunities for the local people, helping to boost their income. This can also improve the living standards of the villagers, making it a sustainable solution for poverty reduction. (Any 3 relevant points to be mentioned) 	
 27. "Agriculture gives boost to the industrial sector'. Justify the statement with any three relevant points. Ans: Agriculture gives boost to the industrial sector in the following way: Raw Material Supply: Agriculture is a significant source of raw materials for various industries, such as food processing, textiles, and paper. For instance, the cotton industry relies heavily on the production of cotton from agricultural fields. Similarly, food processing industries rely on agricultural products such as fruits, vegetables, and cereals. Thus, a healthy agricultural sector can ensure a steady supply of raw materials for industries, which, in turn, can boost their productivity and growth. Market Expansion: Agriculture provides a vast market for industrial products. For example, the use of agricultural goods, including steel, plastics, and rubber. Moreover, the growth of the agricultural sector increases the purchasing power of farmers, who become a significant consumer group for industrial products such as consumer goods, automobiles, and appliances. Employment Generation: Agriculture is a labor-intensive sector that generates employment opportunities for a significant population in India. A healthy agricultural sector can increase the income levels of farmers and agricultural workers, which, in turn, can create a demand for industrial products and services. Additionally, agriculture-related industries such as food processing and agrochemicals also create job opportunities, especially in rural areas. Thus, a robust agricultural sector can help to reduce unemployment and poverty, which are major challenges in India. 	3

A	INS-:
•	In any country, several services such as hospitals, educational institutions, post and telegraph services, police stations, courts, village administrative offices, municipal corporations, defense, transport, banks, and insurance companies, are required. These can be considered basic services. In a developing country, the government must take responsibility for the provision
	of these services.
•	The development of agriculture and industry leads to the development of services such as transport, trade, and storage. The greater the development of the primary and secondary sectors, the more would be demand for such services.

r (1	 B): "Non-conventional resources are the best option to conserve the natural esources" Substantiate this statement with Examples. B): Ans: "Non-conventional resources are the best option to conserve the natural esources"
1	Non-conventional sources are also known as renewable sources of energy. Examples of non-conventional sources of energy include solar energy, Bio
•	energy, tidal energy, wind energy, Geo thermal energy, Natural gas etc. They are inexhaustible and renewable. They are also considered as clean

Page 13 of 20

 The growing consumption of energy has resulted in the country becoming increasingly depend on fossil fuels such as coal, oil and gas. Rising prices of oil and gas and their potential shortages have raised uncertainties about the security of energy supply in future., which in turn has serious repercussions on the growth of the national economy. Natural gas is considered an environmentally friendly fuel because of low carbon dioxide emissions. It does not cause air pollution or environmental degradation. thus, it is the fuel for present century. Renewable energy resources technologies provide an excellent opportunity for mitigation of greenhouse gas emission and reducing global warming through substituting conventional energy sources. How would you evaluate Napoleon as an administrator who created a more	5
rational and efficient system? Elucidate with suitable examples.	
Ans:	
• The Civil Code of 1804 – usually known as the Napoleonic Code, secured the	
right to property, established equality before the law, and removed all privileges	
based on birth.	
• The Napoleonic Code was followed by the regions under the French control.	
 New businessmen, artisans, peasants, and workers enjoyed a new-found freedom. 	
• In territories under French control such as Italy, Germany, Switzerland, and Dutch Republic, peasants were freed from manorial dues, peasants were freed from serfdom, feudal system was abolished, administrative divisions were simplified.	
Guild restrictions were removed in towns.	
There were improvements in communication and transport systems.	
 To facilitate the movement and exchange of goods and capital from one region to another, small-scale producers of goods and businessmen began to realise that common national currency, standardised measures and weights, and uniform laws were of great help. (Any other relevant points)

Q. Analyze the decisions taken by the conservatives at the Congress of Vienna	
in the year 1815.	
Ans: The representatives of the four great European powers – Britain, Russia, Prussia and Austria who had collectively defeated Napoleon, met at Vienna to draw up a settlement for Europe. The Congress was hosted by the Austrian Chancellor Duke Metternich. The result was the Treaty of Vienna of 1815.	
 Its object was to undo the changes that had come about in Europe during the Napoleonic wars and to restore the monarchies that had been overthrown by Napoleon, and create a new conservative order in Europe. The bourbon dynasty, (deposed during the French Revolution) was restored to 	
power.

•	A series of states were set up on the boundaries of France to prevent it from expansion in the future. E.g., kingdom of the Netherlands, which included	
	Belgium, was set up in the north.	
•	Genoa was added to Piedmont in the south. Prussia was given territories on its western frontiers. Austria was given control of northern Italy.	
•	The German confederation of 39 states set up by Napoleon was left untouched.	
	In the east, Russia was given part of Poland while Prussia was given a portion of Saxony.	
	Thus, conservative regimes set up in 1815 were autocratic. They did not tolerate

. An	alyse the role of a multiparty system in a democratic country like India.	5
	s: In a democratic system like India, multiparty politics plays a crucial role in presenting the diverse interests and aspirations of the citizens.	
	The multiparty system allows for a competitive and dynamic political environment,	
	where parties with different ideologies and agendas can participate and compete	
	for the support of the electorate.	
•	The presence of multiple parties also provides a check and balance against any	
	one party becoming too powerful and dominant.	
•	This system allows a variety of interests and opinions to enjoy political	
	representation. People can make a choice between several candidates.	
•	Through this system different and diverse parties could represent the sections of	
	society and power does not absorb in the hands of one single party. India adopted

34	It is said of "passive resistance" that it is the weapon of the weak, but the power which is the subject of this article can be used only by the strong. This power is not passive resistance; indeed, it calls for intense activity. The movement in South Africa was not passive but active 'Satyagraha is not physical force. A satyagrahi does not inflict pain on the adversary; he does not seek his destruction In the use of satyagraha, there is no ill will whatever. 'Satyagraha is pure soul force. Truth is the very substance of the soul. That is why this force is called satyagraha. The soul is informed with knowledge. In it burns the flame of love Nonviolence is the supreme dharma' It is certain that India cannot rival Britain or Europe in force of arms. The British worship the war god and they can all of them become, as they are becoming, bearers of arms. The hundreds of millions in India can never carry arms. They have made the religion of non-violence their own In his famous book Hind Swaraj (1909) Mahatma Gandhi declared that British rule was established in India, with the cooperation of Indians, and had survived only because of this cooperation. If Indians refused to cooperate, British rule will collapse	
	within a year. Why did Gandhiji say that passive resistance is not the weapon of the weak? 	1
	Ans: Gandhiji said" passive resistance is not the weapon of the weak because it calls for intense activity with a lot of inner strength	
	2. "Satyagraha is pure soul-force" substantiate this statement in 20 words. Ans: Truth is the very substance of the soul that is informed with knowledge and thus this force is called satyagraha.	1
	3. What according to Mahatma Gandhi is the best weapon to use to collapse	2
	British rule in India? Ans: Mahatma Gandhi in his book Hind Swaraj declared that through non- cooperation (Satyagraha) only British rule could be collapsed in India as they could build their empire only with the cooperation of Indians.	
35	Maharashtra is a state located in western India, with a population of over 110 million people. The state is home to several large cities, including Mumbai, and has a significant agricultural sector. However, the state is facing a severe water crisis, with its water resources coming under increasing pressure due to climate change, industrialization, and urbanization. The main challenges faced by water resource management in Maharashtra are: i.Overexploitation of groundwater: Maharashtra is one of the most groundwater- stressed states in India, with the demand for water exceeding the supply. Overexploitation of groundwater for agriculture and urban use has led to a decline

in water levels, which has severe implications for the sustainability of water resources.	
 ii.Pollution of surface water: Industrialization and urbanization have led to the pollution of surface water bodies such as rivers and lakes. The pollution has led to water quality degradation, which poses risks to human health and the environment. iii.Inefficient irrigation practices: The agricultural sector is the largest user of water in 	
Maharashtra, accounting for around 80% of total water use. However, traditional irrigation practices such as flood irrigation are inefficient and lead to the wastage of water.	
1. Mention any two reasons for the water crisis faced by the state of Maharashtra.	1
Ans: Two reasons for Maharashtra facing a water crisis are overexploitation of groundwater and pollution of surface water bodies due to industrialization and	
urbanization. 2. Despite being the second highest rainfall-receiving state of the country, Maharashtra still faces water crisis. Substantiate this statement in 40 words.	2
Ans : Despite receiving the second-highest rainfall in the country, traditional irrigation practices like flood irrigation leading to water shortages in Maharashtra. This is because flood irrigation involves excessive water use, and the water gets lost due to runoff, leading to less water available for other uses.	
3. Propose any one solution to mitigate the water crisis faced by Maharashtra state.	1
Ans: To mitigate the water crisis in Maharashtra, one solution could be to promote the adoption of more efficient irrigation practices, such as drip irrigation and sprinkler systems, that use less water and are more targeted in their delivery.	
The state can also use rain water harvesting system to improve ground water levels along the western side of western Ghats which receive maximum rain fall. This will increase the efficiency of water use in the state of Maharashtra

36 Read the source given below and answer the questions that follow: For comparing countries, their income is considered to be one of the most important attributes. Countries with higher income are more developed than others with less income. This is based on the understanding that more income means more of all things that human beings need. Whatever people like, and should have, they will be able to get with greater income. So, greater income itself is considered to be one important goal. Now, what is the income of a country? Intuitively, the income of the country is the income of all the residents of the country. This gives us the total income	
of the country. However, for comparison between countries, total income is not such an useful measure. Since, countries have different populations, comparing total income will not tell us what an average person is likely to earn. Are people in one country better off than others in a different country? Hence, we compare the average income which is the total income of the country divided by its total population. The	
average income is also called per capita income. In World Development Reports, brought out by the World Bank, this criterion is used in classifying countries. Countries with per capita income of US\$ 49,300 per annum and above in 2019, are called high income or rich countries and those with per capita income of US\$ 2500 or less are called low-income countries. The rich countries, excluding countries of
