**Directions:** Given below is a statement of legal principle followed by a factual situation. Apply the principle to the facts given below and select the most appropriate answer.

**87. LEGAL PRINCIPLE:** The occupier of a premises owes a duty of care to all his invitees and visitors.

**FACTUAL SITUATION:** Laloo was running a dairy from his house. People used a part of his farm as a short cut to get to a nearby railway station. Laloo who did not approve of this, put up a notice that 'Trespassers will be prosecuted'. However, since a number of these people were also his customers he tolerated them. One day, a person who was using this short cut was attacked by a bull belonging to the farm. The injured person filed a suit against him.

**DECISION:**

- (a) Laloo is liable for having kept a bull on his farm
- (b) Laloo is not liable in view of the clear notice against trespassers
- (c) Laloo is liable because in fact he allowed the people to use his premises
- (d) Laloo is not liable to the people other than his customers.

**Directions:** In each of the following questions, a series of letters or numbers has been arranged in some sequence. Below each are given alternative responses. Find out the correct response.

**88. 2, 6, 14, 11, 15, 23, 20, 24, , 29**

- (a) 31
- (b) 29
- (c) 28
- (d) 32.

**89. 97, 86, 73, ,45, 34**

- (a) 54
- (b) 56
- (c) 58
- (d) 60.

**90. MOQ, SUM, YAC,**

- (a) FIL
- (b) DHJ
- (c) EGI
- (d) XAD.

**91. KWZ, MOX, OIV, QET,**

- (a) SAQ
- (b) SUR
- (c) RAP
- (d) SCR.

**Directions:** The following five (5) items consist of two Statements, one labelled the 'Assertion A' and the other labelled the Reason R. You are to examine these two Statements carefully and decide if the

Assertion A and the Reason R are individually true and if so whether the Reason is a correct explanation of the Assertion. Select your answers to these items using the codes given below and mark your answer accordingly.

**Code:**

- (a) Both A and R are true and R is the correct explanation of A
- (b) Both A and R are true but R is not the correct explanation of A
- (c) A is true but R is false
- (d) A is false but R is true.

**92. Assertion (A):** A stranger to a contract has no right to enforce it against the parties to the contract.

**Reason (R):** Privity of contract between the parties is essential for enforcement of contract.

**93. Assertion (A):** A finder of a thing has title to it.

**Reason (R):** The finder's title to a thing is superior to that of the owner.

**94. Assertion (A):** A minor is not competent to enter into any contract, even for necessities.

**Reason (R):** For necessities supplied to a minor, his estate can be made liable to reimburse.

**95. Assertion (A):** A legal right is a legally protected interest.

**Reason (R):** An element of advantage is essential to constitute a right.

**96. Assertion (A):** Customs to have the force of law must be immemorial.

**Reason (R):** Custom represents common consciousness of people.

**Directions:** In each of the following questions one statement is followed by two arguments (A) and (B) one supporting and the other against it. Mark.

- (a) If only argument (A) is strong
- (b) If only argument (B) is strong
- (c) If either (A) or (B) is strong
- (d) If both (A) and (B) are strong.

**97. Statement:** Should India adopt a Presidential system?

**Arguments:**

- (A) Yes – Because our experience of Parliamentary democracy is disappointing.
- (B) No – Because it will concentrate power in the hands of a few people.

**98. Statement:** Should the death sentence be abolished?

**Arguments:**

- (A) Yes – The death sentence deprives the culprit of all chances of improving his behaviour.
- (B) No – Capital punishment restrains criminal tendency.

**Directions:** In the following question, a statement is followed by two conclusions (A) and (B). You have to assume everything in the statement to be true, and consider both the conclusions together, and then decide which of the two given conclusions logically follow beyond a reasonable doubt from the information given in the statement. Mark.

- (a) if only conclusion (A) follows
- (b) if only conclusion (B) follows
- (c) If either (A) or (B) follows

(d) If neither (A) nor (B) follows.

**99. Statement:** The greatest advantage of democracy over all other forms of governments is not that the men who have gone to the top are exceptionally wise, but that since their power depends upon popular support, they know that they cannot retain their position if they are guilty of more than a modicum of injustice.

**Conclusions:**

- (A) In a democracy, persons in power cannot act arbitrarily.
- (B) Democratic countries cannot have excellent leaders.

**100. I go 100 metres towards North from my house, then I turn left and go 200 metres, then turning left I go 200 metres, then again turning left I go 100 metres, and then turning left again I go 100 metres. In which direction am I now from my house?**

- (a) West
- (b) East
- (c) North
- (d) South.

**Directions:** Some information is provided in the form of statements. On the basis of that information find the answer to the questions which follow.

1. A cube has six sides each of a different colour
2. The red side is opposite black
3. The green side is between red and black
4. The blue side is adjacent to white
5. The brown side is adjacent to blue
6. The red side is face down.

**101. The side opposite to brown is**

- (a) Red
- (b) Black
- (c) White
- (d) Green.

**102. The four colours adjacent to green are**

- (a) Red, Black, Blue and White
- (b) Red, Black, Brown and Blue
- (c) Red, Black, Brown and White
- (d) Black, Blue, White and Red.

**103. K is L's wife's husband's brother. M is the sister of K.N is the sister of L. How is K related to L?**

- (a) Sister-in-law
- (b) Brother
- (c) Daughter
- (d) Wife.

**104. Atul is the son of Zamir. Alka is the daughter of Aman. Sheela is the wife of Aman. Mohan is the son of Sheela. How is Alka related to Mohan?**

- (a) Sister
- (b) Uncle

- (c) Son
- (d) Father.

Five adults A, B, C, D and E are sitting at Bharat Provision Store. In the group, there is one Manager, one Accountant, one Supplier of provisions. The Accountant, who has a child earns least money. A, who is married to C's sister, earns more than the Manager. D is an unmarried lady and does not do any work. There is one married couple in a group of which B is husband, E is the brother of C and is neither a Supplier nor an Accountant. No lady is a Supplier or Manager. C is neither a Supplier nor an Accountant.

**105. Who is Accountant?**

- (a) A
- (b) B
- (c) C
- (d) D

**106. Who is Supplier?**

- (a) A
- (b) B
- (c) C
- (d) D

**107. Who is the wife of B?**

- (a) A
- (b) B
- (c) C
- (d) E

**108. Who is earning the highest?**

- (a) A
- (b) B
- (c) C
- (d) D

**109. Who is the sister of C?**

- (a) A
- (b) B
- (c) E
- (d) D

**110. It is possible to make a meaningful word with the third, the fourth, and the eleventh letters of word 'CONTROVERSIAL' write the first letter of that word.**

- (a) I
- (b) N
- (c) S
- (d) T

**111. If (a) 'Chip din chunk' means student attends class; (b) 'din sunk dink' means Arjuna is student; (c) 'jump nink sink' means schools are good; (d) 'dink mup chimp' means teacher is good, then what is the code for Arjuna?**

- (a) din
- (b) sunk
- (c) dink
- (d) chunk.

**Directions:** In the following groups one does not belong to that group. Find the odd one.

- 112.** (a) Cheese  
(b) Saffron  
(c) Pepper  
(d) Lard.

- 113.** (a) Hansom  
(b) Victoria  
(c) Growler  
(d) Baroque.

**Directions:** The questions in this section are based on the reasoning contained in brief statements or passages. For some questions, more than one of the choices could conceivably answer the question. However, you are to choose the best answer; that is, the response that most accurately and completely answers the question. You should not make assumptions that are by common sense standards implausible, superfluous or incompatible with the passage.

**Consumer advocate:** Businesses are typically motivated primarily by the desire to make as great a profit as possible, and advertising helps businesses to achieve this goal. But it is clear that the motive of maximizing profits does not impel businesses to present accurate information in their advertisements. It follows that consumers should be sceptical of the claims made in advertisements.

**114. Each of the following, if true, would strengthen the consumer advocate's argument EXCEPT**

- (a) Businesses know that they can usually maximize their profits by using inaccurate information in their advertisements
- (b) Businesses have often included inaccurate information in their advertisements
- (c) Many consumers have a cynical attitude toward advertising
- (d) Those who create advertisements are less concerned with the accuracy than with the creativity of advertisements.

**Science columnist:** It is clear why humans have so many diseases in common with cats. Many human diseases are genetically based, and cats are genetically closer to humans than are any other mammals except non-human primates. Each of the genes identified so far in cats has an exact counterpart in humans.

**115. Which one of the following, if true, most weakens the science columnist's explanation for the claim that humans have so many diseases in common with cats?**

- (a) Cats have built up resistance to many of the diseases they have in common with humans
- (b) Most diseases that humans have in common with cats have no genetic basis
- (c) Cats have more diseases in common with nonhuman primates than with humans
- (d) Many of the diseases humans have in common with cats are mild and are rarely diagnosed.

**Psychologist:** It is well known that becoming angry often induces temporary incidents of high blood

pressure. A recent study further showed, however, that people who are easily angered are significantly more likely to have permanently high blood pressure than are people who have more tranquil personalities. Coupled with the long established fact that those with permanently high blood pressure are especially likely to have heart disease, the recent findings indicate that heart disease can result from psychological factors.

**116. Which one of the following would, if true, most weaken the psychologist's argument?**

- (a) Those who are easily angered are less likely to recover fully from episodes of heart disease than are other people
- (b) Medication designed to control high blood pressure can greatly affect the moods of those who use it
- (c) People with permanently high blood pressure who have tranquil personalities virtually never develop heart disease
- (d) The physiological factors that cause permanently high blood pressure generally make people quick to anger.

A professor of business placed a case-study assignment for her class on her university's computer network. She later found out that instead of reading the assignment on the computer screen, 50 out of the 70 students printed it out on paper. Thus, it is not the case that books delivered via computer will make printed books obsolete.

**117. Which one of the following, if true, most strengthens the argument?**

- (a) Several colleagues of the professor have found that, in their non-business courses, several of their students behave similarly in relation to assignments placed on the computer network
- (b) Studies consistently show that most computer users will print reading material that is more than a few pages in length rather than read it on the computer screen
- (c) Some people get impaired vision from long periods of reading printed matter on computer screens, even if they use high quality computer screens
- (d) Scanning technology is very poor, causing books delivered via computer to be full of errors unless editors carefully read the scanned versions.

**Directions:** Each group of questions in this section is based on a set of conditions. Choose the response that most accurately and completely answers each question.

A panel reviews six contract bids – H, J, K, R, S, and T. No two bids have the same cost. Exactly one of the bids is accepted. The following conditions must hold:

1. The accepted bid is either K or R and is either the second or the third lowest in cost
2. H is lower in cost than each of J and K
3. If J is the fourth lowest in cost, then J is higher in cost than each of S and T
4. If J is not the fourth lowest in cost, then J is higher in cost than each of S and T
5. Either R or S is the fifth lowest in cost.

**118. Which one of the following could be an accurate list of the bids in order from lowest to highest in cost?**

- (a) T, K, H, S, J, R
- (b) H, T, K, S, R, J
- (c) H, S, T, K, R, J
- (d) H, K, S, J, R, T

**119. Which one of the following bids CANNOT be the fourth lowest in cost?**

- (a) H
- (b) J
- (c) K
- (d) R

**120. Which one of the following bids CANNOT be the second lowest in cost?**

- (a) H
- (b) J
- (c) K
- (d) R

Detectives investigating a citywide increase in burglaries questioned exactly seven suspects – S, T, V, W, X, Y and Z – each on a different one of seven consecutive days. Each suspect was questioned exactly once. Any suspect who confessed did so while being questioned. The investigation conformed to the following:

1. T was questioned on day three.
2. The suspect questioned on day four did not confess.
3. S was questioned after W was questioned.
4. Both X and V were questioned after Z was questioned.
5. No suspects confessed after W was questioned.
6. Exactly two suspects confessed after T were questioned.

**121. Which one of the following could be true?**

- (a) X was questioned on day one
- (b) V was questioned on day two
- (c) Z was questioned on day four
- (d) W was questioned on day five

**122. If Z was the second suspect to confess, then each of the following statements could be true EXCEPT:**

- (a) T confessed
- (b) T did not confess
- (c) V did not confess
- (d) Y did not confess.

**123. Find the least number that when divided by 16, 18 and 20 leaves a remainder 4 in each case, but is completely divisible by 7.**

- (a) 364
- (b) 2254
- (c) 2884
- (d) 3234

**124. The average age of three boys is 15 years. If their ages are in the ratio 3:5:7, the age of the youngest boy is**

- (a) 21 years
- (b) 18 years
- (c) 15 years
- (d) 9 years.

**125. A's salary is first increased by 25% and then decreased by 20%. The result is the same as B's salary increased by 20% and then reduced by 25%. Find the ratio of B's salary to that of A's?**

- (a) 4:3
- (b) 11 : 10
- (c) 10 : 9
- (d) 12 : 11.

**126. A man sells 5 articles for Rs. 15 and makes a profit of 20%. Find his gain or loss percent if he sells 8 such articles for Rs. 18.40.**

- (a) 2.22% profit
- (b) 2.22% loss
- (c) 8% loss
- (d) 8% profit.

**127. What is the simple interest for 9 years on a sum of Rs. 800 if the rate of interest for the first 4 years is 8% per annum and for the last 4 years is 6% per annum?**

- (a) 400
- (b) 392
- (c) 352
- (d) Cannot be determined.

**128. In Ramnagar Colony, the ratio of school going children to non-school going children is 5 : 4. If in the next year, the number of non-school going children is increased by 20%, making it 35,400, what is the new ratio of school going children to non-school going children?**

- (a) 4 : 5
- (b) 3 : 2
- (c) 25 : 24
- (d) None of these.

**129. Amar and Akbar left Bhubaneshwar simultaneously and travelled towards Cuttack. Amar's speed was 15 km/h and that of Akbar was 12 km/h. Half an hour later, Anthony left Bhubaneshwar and travelled in the same direction. Some time later, he overtook Akbar and 90 minutes further on he overtook Amar. Find Anthony's speed.**

- (a) 18 kmph
- (b) 24 kmph
- (c) 12 kmph
- (d) 16 kmph.

**130. Five boys and three girls are sitting in a row of eight seats. In how many ways can they be seated so that not all girls sit side by side?**

- (a) 36,000
- (b) 45,000
- (c) 24,000
- (d) None of these.

**131. A bag contains 5 red, 4 green and 3 black balls. If three balls are drawn out of it at random, find the probability of drawing exactly 2 red balls.**

- (a)  $\frac{7}{22}$
- (b)  $\frac{10}{33}$

- (c) 7/12
- (d) 7/11.

**132. Ajit can do as much work in 2 days as Baljit can do in 3 days and Baljit can do as much in 4 days as Diljit in 5 days. A piece of work takes 20 days if all work together. How long would Baljit take to do all the work by himself?**

- (a) 82 days
- (b) 44 days
- (c) 66 days
- (d) 50 days.

**133. "Project Tiger" was launched in**

- (a) 1973
- (b) 1974
- (c) 1978
- (d) 1981.

**134. Which of the following fighter aircraft was flown by former President Pratibha Patil?**

- (a) F-16
- (b) MI-30
- (c) Jaguar
- (d) Sukhoi-30MKI.

**135. The name "Baichung Bhutia" is associated with**

- (a) Football
- (b) Hockey
- (c) Polo
- (d) Cricket.

**136. The present Chairperson of the National Human Right Commission of India is (Options Modified)**

- (a) R.C. Lahoti
- (b) K.G. Balakrishnan
- (c) J.S. Verma
- (d) A.S. Anand.

**137. The present Secretary General of United Nations Organisation is**

- (a) Condoleeza Rice
- (b) Shashi Tharoor
- (c) Ban ki-Moon
- (d) Kofi Annan.

**138. Who is the author of the book "My Life"?**

- (a) Bill Clinton
- (b) Tony Blair
- (c) Hillary Clinton
- (d) Dalai Lama.

**139. "Golden Handshake" is the term associated with**

- (a) Share Market

- (b) Investment of Gold
- (c) Voluntary Retirement
- (d) Marriage without Dowry Benefits

**140. National Disaster Management Authority is constituted under**

- (a) Natural Calamities Management Act, 2005
- (b) Disaster Management Act, 2005
- (c) Planning Commission Decision
- (d) Cabinet Decision.

**141. Indian Airlines (New name: Air India) have redesigned their logo which is a graphic wheel. This logo has been inspired from which one of the following?**

- (a) Khajuraho Temple
- (b) Sim Temple, Konark
- (c) Mamallapuram Temples
- (d) Hampi Temples.

**142. Who has been recently awarded Officer de La Legion' Honor, the highest award of France?**

- (a) Shatrughan Sinha
- (b) Lata Mangeshkar
- (c) Amitabh Bachchan
- (d) Aishwarya Rai.

**Directions:** Each set of questions in this section is based on the passage. The questions are to be answered on the basis of what is stated or implied in the passage. For some of the questions, more than one of the choices could conceivably answer the question. However, you are to choose the best answer; that is, the response that most accurately and completely answers the questions.

Most people acknowledge that not all governments have a moral right to govern and that there are sometimes morally legitimate reasons for disobeying the law, as when a particular law prescribes behaviour that is clearly immoral. It is also commonly supposed that such cases are special exceptions and that, in general, the fact that something is against the law counts as a moral, as well as legal, ground for not doing it; i.e., we generally have a moral duty to obey a law simply because it is the law. But the theory known as philosophical anarchism denies this view, arguing instead that people who live under the jurisdiction of governments have no moral duty to those governments to obey their laws. Some commentators have rejected this position because of what they take to be its highly counter-intuitive implications: (a) that no existing government is morally better than any other (since all are, in a sense, equally illegitimate), and (2) that, lacking any moral obligation to obey any laws, people may do as they please without scruple. In fact, however, philosophical anarchism does not entail these claims.

First, the conclusion that no government is morally better than any other does not follow from the claim that nobody owes moral obedience to any government. Even if one denies that there is a moral obligation to follow the laws of any government, one can still evaluate the morality of the policies and actions of various governments. Some governments do more good than harm, and others more harm than good, to their subjects. Some violate the moral rights of individuals more regularly, systematically, and seriously than others. In short, it is perfectly consistent with philosophical anarchism to hold that governments vary widely in their moral stature.

Second, philosophical anarchists maintain that all individuals have basic, non-legal moral duties to one another—duties not to harm others in their lives, liberty, health, or goods. Even if governmental laws have no moral force, individuals still have duties to refrain from those actions that constitute crimes in the majority of legal systems (such as murder, assault, theft, and fraud). Moreover, philosophical

anarchists hold that people have a positive moral obligation to care for one another, a moral obligation that they might even choose to discharge by supporting co-operative efforts by governments to help those in need. And where others are abiding by established laws, even those laws derived from mere conventions, individuals are morally bound not to violate those laws when doing so would endanger others. Thus, if others obey the law and drive their vehicles on the right, one must not endanger them by driving on the left, for, even though driving on the left is not inherently immoral, it is morally wrong to deliberately harm the innocent.

**143. Which one of the following most accurately expresses the main point of the passage?**

- (a) Some views that certain commentators consider to be implications of philosophical anarchism are highly counter-intuitive
- (b) Contrary to what philosophical anarchists claim, some governments are morally superior to others and citizens under legitimate governments have moral obligations to one another
- (c) It does not follow logically from philosophical anarchism that no government is morally better than any other or that people have no moral duties toward one another
- (d) Even if, as certain philosophical anarchists claim, governmental laws lack moral force, people still have a moral obligation to refrain from harming one another.

**144. The author identifies which one of the following as a commonly held belief?**

- (a) In most cases we are morally obligated to obey the law simply because it is the law
- (b) All governments are in essence morally equal
- (c) We are morally bound to obey only those laws we participate in establishing
- (d) Most crimes are morally neutral, even though they are illegal.

**145. The author's stance regarding the theory of philosophical anarchism can most accurately be described as one of**

- (a) ardent approval of most aspects of the theory
- (b) apparent acceptance of some of the basic positions of the theory
- (c) concerned pessimism about the theory's ability to avoid certain extreme views
- (d) hesitant rejection of some of the central features of the theory.

**146. By attributing to commentators the view that philosophical anarchism has implications that are "counter-intuitive", the author most likely means that the commentators believe that**

- (a) the implications conflict with some commonly held belief
- (b) there is little empirical evidence that the implications are actually true
- (c) common sense indicates that philosophical anarchism does not have such implications
- (d) the implications appear to be incompatible with each other.

**147. Which one of the following scenarios most completely conforms to the view attributed to philosophical anarchists in third paragraph?**

- (a) A member of a political party that is illegal in a particular country divulges the names of other members because he fears legal penalties
- (b) A corporate executive chooses to discontinue illegally when she learns that the chemicals are contaminating the water supply
- (c) A person who knows that a co-worker has stolen funds from their employer decides to do nothing because the co-worker is widely admired
- (d) A person neglects to pay her taxes, even though it is likely that she will suffer severe legal penalties as a consequence, because she wants to use the money to finance a new business.

**148. It can be inferred that the author would be most likely to agree that**

- (a) people are subject to more moral obligations than is generally held to be the case
- (b) governments that are morally superior recognize that their citizens are not morally bound to obey their laws
- (c) one may have good reason to support the efforts of one's government even if one has no moral duty to obey its laws
- (d) there are some sound arguments for claiming that most governments have a moral right to require obedience to their laws.

**149. The author's discussion of people's positive moral duty to care for one another function primarily to**

- (a) demonstrate that governmental efforts to help those in need are superfluous
- (b) suggest that philosophical anarchists maintain that laws that foster the common good are extremely rare
- (c) imply that the theoretical underpinnings of philosophical anarchism are inconsistent with certain widely held moral truths
- (d) indicate that philosophical anarchists recognize that people are subject to substantial moral obligations.

**150. In the passage, the author seeks primarily to**

- (a) describe the development and theoretical underpinnings of a particular theory
- (b) establish that a particular theory conforms to the dictates of common sense
- (c) argue that two necessary implications of a particular theory are morally acceptable
- (d) defend a particular theory against its critics by showing that their arguments are mistaken.
